Roundtable 1: Subnational Efforts to Develop Renewable Energy Resources

Global electricity is primarily generated by high-polluting fossil fuels. Any significant reduction in global greenhouse gas emissions requires fossil-fuel heavy jurisdictions to transition to cleaner fuels and the rapid scaling and expansion of renewable energy resources worldwide. Roundtable participants will discuss the status of the global renewable energy market and key policies being implemented at the subnational level to advance the deployment of these resources.

- **Moderator:**
 - **Jonathan Weisgall**, Vice President of Gov't Relations, Berkshire Hathaway Energy
- **Panelists:**
 - **Edmund G. Brown Jr.**, Governor, California, U.S.
 - **Kate Brown**, Governor, Oregon, U.S.

- **Jay Inslee**, Governor, Washington, U.S.
- **Mary Polak**, Minister of Environment, British Columbia, Canada

11:00 - 11:30

Break & Networking/Subnational Bilateral Opportunity

11:30 - 13:00

Roundtable 2: Innovative Electricity Demand Management Initiatives
Technology advancements and the need to reduce the environmental impacts of electricity consumption are creating new and innovative opportunities for consumers to actively manage their electricity consumption, reducing costs and greenhouse gas emissions. During this roundtable, participants will discuss subnational policy strategies and actions that are encouraging the efficient use of electricity in buildings and industry.

- **Moderator:**
 - **Ralph Cavanagh**, Energy Program Co-Director, Natural Resources Defense Council
- **Panelists:**

- **Tord Lien**, Minister of Petroleum & Energy, Norway

14:30 - 16:00

Roundtable 3: Low-Carbon Transportation Policy & Zero-Emission Vehicles

Achieving the goals set forth in the Under 2 MOU will require a low-carbon transportation system that provides access to communities, jobs, goods and services. That system needs zero-emission vehicles (ZEVs) that

produce no tailpipe emissions, integrated with renewable, low- and zero-carbon energy sources. Roundtable participants will discuss the current status of ZEVs and the subnational policies that can accelerate their adoption around the world.

- **Moderator:**

- **Anthony Eggert**, Program Director of Oil, Climate Works

- **Panelists:**

- **Mary Nichols**, Chair, California Air Resources Board, U.S.
